

Launch January 2021
Carrot 3 Car Seat & Carrot 3 Booster Accessories

- **Anti-Adduction Pad** – This Anti-Adduction Pad can be used facing forwards as a knee separator, or facing the back of the Carrot 3 as an anti-adduction pad.
- **Incontinence Pad** – This washable incontinence cover helps make messes easy to clean up.
- **Anti-Escape Vest** – This Anti-Escape Vest is available in 3 different sizes to help keep your loved ones safe.
- **Hinge Lock Belt** – Unlike other car seats we actually recommend that you carry the Carrot 3 by using the harnesses. This Hinge Lock Belt makes transfers of the Carrot 3 easier by removing the ability of the Carrot 3 to recline while carrying.
- **FAA Installation** – The Carrot 3 is now certified to be used on airplanes! This installation requires a new securement strap which goes around the back of the airplane seat. With the purchase of this airplane securement strap you will also receive an FAA Certification sticker for your Carrot 3.
- **Longer Crotch Belt for Carrot 3 XL/Booster Seat** – For the Carrot 3 XL/Booster Seat only a larger crotch belt is now available to provide added comfort to your growing child.
